THE WEATHER
Fair tonight and Thursday,
except possibly light snow to-
night near Lake Erie. Some-
what colder tonight.

VOLUME XVII

THE CLEARFIELD PROGRESS, CLEARFIELD, PA.

WEDNESDAY EVENING, NOVEMBER 7, 1923.

NUMBER 263

G. O. P. SWEEPS COUNTY

**CHASE ELECTED JUDGE BY OVER 2,000;
DALE AND WEIMER BIG WINNERS; THIRD
PLACE GOES TO BLAKE W. McCracken**

**Ralston Elected By Over 5,000 Majority; Brat-
ton Leads Brown By 2,500; Woodward Noses
Out William Hagerty By Better Than 500**

A. G. O. P. VICTORY ALL ALONG THE LINE

The accompanying "Vote By Precincts" will be com-
pleted in tomorrow's issue. The totals given in the head
and news story are taken from returns compiled by The
Progress and include the entire county with the exception
of Coalington, Karthaus, Morrisdale, Curwensville of Pike
Township, Union and the Register, Prothonotary and Con-
troller in Coalport and the third ward of DuBois.

THE TOTAL

For Judge	
CHASE, Republican	10,583
SNYDER, Democrat	8,043
Controller	
WOODWARD, Republican	8,831
HAGERTY, Democrat	8,334
Prothonotary	
RALSTON, Rep., Pro., Soc.	11,041
CHAPLIN, Democrat	5,577
Register and Recorder	
BRATTON, Republican	9,806
BROWN, Dem. and Pro.	7,206
County Commissioner	
DALE, Republican	6,725
WEIMER, Republican	6,505
FARRELL, Democrat	5,092
McCRACKEN, Dem., Pro., Ind.	8,223
THORPE, Pro. and Soc.	1,820
BOYCE, Independent	4,620

The largest vote ever recorded in Clearfield County was
polled at Tuesday's election. Weather conditions were ideal
and the strenuous efforts by the friends of the rival candidates
for Judge in the closing weeks of the campaign, together with
the County Commissioner fight, were responsible for this record
vote. The result was, as predicted by The Progress, a sweep-
ing victory for the entire Republican ticket.

A. R. Chase, the Republican candidate for Judge, and one
of the leaders among the younger members of the Bar, carried
the county over his Democratic opponent by a majority that
will run close to 2500.

Prothonotary George W. Ralston, who had the Republi-
can, Socialist and Prohibition nominations, led the ticket with
11,041 votes, with seven districts out, and will have a majority
over John S. Chaplin, his Democratic opponent, of approxi-
mately 5,500.

For Register and Recorder Milford Bratton had a majority
of 2,600 over E. V. Brown, Democrat and Prohibitionist, with
seven districts to hear from.

The County Controller fight between A. G. Woodward,
Republican, and W. A. Hagerty, Democrat, was a real battle,
Mr. Hagerty's personal strength causing him to run up within
500 votes of his opponent.

The County Commissioner fight developed into a real
scramble, the independent ticket cutting real ice. However,
the Republican members of the "old board" came under the
wire with a safe lead, while Blake W. McCracken, who had
the Democratic, Prohibition and Independent nominations, polled
1600 more votes than "Old King Tut," who leads Weimer
by 250 votes. John Boyce, the other independent candidate,
received more than 4,600 votes, but ran 1,700 votes behind
Weimer. M. L. Farrell, present Democratic member of the
Board, received 5,092 votes. W. T. Thorpe, one of the Republi-
can primary candidates, who received the Prohibition and
Socialist nominations and whose name was placed upon the
ticket, received 1,820 votes for Commissioner.

The result was all that could have been expected by the
Republican organization, which waged such a strenuous cam-
paign and once more establishes the fact that Clearfield is a
rock-ribbed, old-style Republican county, and no mistake
about it.

BOROUGH OFFICES
FILED BY VOTERS;
SPIRITED ELECTION

Harrisburg, Nov. 7.—Some
Democrats and Independents
were swept into office in sec-
tions of Pennsylvania where or-
ganization control is lacking,
returns from the election indi-
cated today.

Outside of Philadelphia, Al-
legheny, Schuylkill and other
machine counties, "Citizens"
Parties, Socialists, Democrats
and Labor Party candidates
made inroads where Republi-
can strength before had been
conceded.

The 4 constitutional amend-
ments, including the \$50,000,
\$100,000 road bond issue, were
carried by the majority, rolled
up in about ten counties. Philadel-
phia and Pittsburgh organiza-
tions supported the bond pro-
posal.

Democrats resumed control
in a dozen counties as a result
of bitter factional contests. Re-
publican candidates for mayors
were defeated in Reading, Al-
lentown, Lebanon, Williams-
port and York.

William Freeland Kendrick
was chosen Mayor of Philadel-
phia by a plurality exceeding
240,000.

Democrats gained practical-
ly complete control of Berks,
Gamblerland and Franklin coun-
ties for the first time in years,
and in York, Adams, Perry,
Northumberland, Lycoming,
Mifflin and other central Penn-
sylvania counties, the Demo-
crats were giving the Republi-
cans a close race for the im-
portant offices.

Columbus, O., Nov. 7.—The
Klan fighting was the hottest,
the "Invisible Empire" scored
a clean-cut victory in the elec-
tion of Charles F. Schneible,
who was chosen mayor over
the nearest of his five oppo-
nents by a plurality of 10,000.

Other cities where the Klan
claimed victories are: Newark,
Portsmouth, Tiffin, Elyria, Ak-
ron, Marion, East Liverpool,
Ashland, Springfield, Crook-
ville and Medina.

FRANKE A WINNER
Johnstown, Pa., Nov. 7.—Ex-
Mayor Lewis Franke was win-
ner in the mayoralty fight in
Johnstown, while the entire
Republican city ticket was also
elected.

County returns indicated a
close fight for county treasurer
and for district attorney.
Other county offices were
won by the Republicans.

The largest vote ever polled
in Clearfield borough was cast
at yesterday's election, the total
balloting amounting to a few
more than 2700. J. Frank Syn-
der, the Democratic candidate
for Judge, carried every pre-
cinct in the town and had a
majority of 652 in the borough
over A. R. Chase, his Republi-
can rival, who won the election.
The vote on School Director
resulted in the re-election of
President of the Board A. D.
Bigler. E. Clair Davis and Dr.
Ward J. Wilson were the other
two successful candidates for
School Director.

The free Library proposition
got an awful wallowing, every
precinct returning substantial
majorities against the Library.

In the 1st Ward Blair Sykes,
Rep., was elected to Council
over Charles Callahan, Dem.,
present member. The Second
Ward re-elected Geo. M. Rosser
and Ira Jay, both Democrats.
The Third Ward elected two
Republicans, Ralph McKee and
Edward Schenck, while A. G.
Bowe, Democrat, was elected
to Council from the 4th Ward.

The vote for municipal candidates
in Clearfield is as follows:

ODDS AND ENDS
AND THINGS

By J. B. G.

If you want to hear just how little the average man knows about how the public business is transacted just ask the next fellow you meet what his tax valuation is? How much tax he pays. How much of this total is county tax, how much borough or township and how much is school tax. We'll bet you a cent the only thing he can tell you is the amount of his tax, and that he has no idea how the total is made up. But just try it once and see for yourself.

The State Forestry Department erected a fire or observation tower at Paines, Clearfield county, last year and Miss Maude Alma Walther, of Clearfield, has been chosen to man the tower and guard against forest fires in the area affected. The tower is 60 feet high and is located on one of the highest points along Clearfield Creek.

A reader of the City, Minn., Miner kindly pointed out a typographical error in the letter which brought about this explanation:

"There are about 33 letters and pieces in each line of type set in the paper and there are 33 times 33 chances of error in each line."

"There are 5,613 pieces in a column and 20,000,744 chances to make a mistake besides innumerable chances of having inaccurate statements made. Figure it up yourself."

"There are 33 columns in the paper each time it is published and each column runs the same chance of mistakes. Everyone makes mistakes."

Collections under the Federal income tax laws average \$107.98 per tax payer, it is shown in the newest study of returns to be completed by the Treasury Department.

The study deals with collections made in 1922, which were based on income earned in the preceding year. Collections of 1922, when studied, will show a slight increase over 1921, it is believed. The nation's income was low in 1921, which will be remembered as a year of depression and widespread unemployment.

Net income per tax payer under the 1922 collections averaged \$2,288.56. Federal income tax payers number out of each 100 residents of the United States.

In New York, whose residents contributed the largest income tax total of any state, the average tax paid was \$197.60. Rhode Island was close behind New York with an average tax payment of \$192.20 per tax payer.

In five other states the average tax per payer was in excess of \$100. These states were Illinois, Maryland, Massachusetts, New Jersey and Pennsylvania.

GOV. RITCHIE WINS
Baltimore, Md., November 7.—Governor Albert C. Ritchie, Democrat, was re-elected Governor of Maryland in the elections yesterday. His plurality over Alexander Armstrong, Republican, was 41,000.

DEMOCRATS WIN IN KENTUCKY

Covington, Ky., November 7.—Democracy returned to the saddle in Kentucky after four years of Republican government when W. J. Fields, of Owsley, was elected Governor over Charles I. Dawson.

The Democratic nominee won by 24,000 plurality.

REPUBLICANS WIN IN NEW JERSEY ON DRY ISSUE

SHOULD EXTEND
APPLE WEEK SAYS
STATE PHYSICIAN

Harrisburg, Nov. 6 (United Press).—"Apple Week" from the health standpoint might well be extended to cover the entire week, Dr. Charles H. Miner, secretary of health, declared in his weekly health talk today.

"Practically all ripe fruits are wholesome and digestible, the apple particularly so," said Dr. Miner. "It is mildly laxative and in addition to the nutritional and energy producing qualities derived from the presence of sugar and its mineral constituents, it contains vitamins, those mysterious elements which have been demonstrated as absolutely necessary to the transference of the food which we eat into living tissues."

"Because apples are plentiful in Pennsylvania and more easily obtainable than other fruits and because, in addition, they may be kept the year round, physicians in general recommend apples as a part of the regular diet. They are suitable for the lunch basket, they are pleasing at the table and satisfying when the period between meals has been prolonged."

"A justifiable argument in favor of apples is that when eaten raw, they are of distinctive service for their cleansing effect on the teeth. While 'an apple a day keeps the doctor away' may not be accepted in its literal sense there is no doubt that the eating of ripe apples is in a general way conducive to good health."

HENDERSON WINS
A PLACE ON HIGH
COURT OF STATE

Philadelphia, Nov. 7.—Judge John J. Henderson of Meadville was selected to the State Superior Court by the Republicans of Pennsylvania for a term of 10 years. He was supported in all voting by the regular Republican organization. His Democratic opponent was Chas. D. McAvoy of Norristown, former Federal District Attorney for the 3rd district of Pennsylvania. The socialist candidate

was H. J. Ellis of Philadelphia. Ellis candidate received about the normal party vote according to reports.

SHOW CASES AND FIXTURES FOR SALE

I am going to remodel the interior of the store and will have for sale five floor show cases eight feet long and thirty-six feet of shelving or wall cases. I can give possession of all of these in about three weeks.

Each time a key
is struck

A JOLTING shock ten thousand times a day on the sensitive nerves of your finger tips; shocks like the rattle of a riveter which all too quickly make your eyes ache and your head swim.

And so it is useless. You can ease the strain of a hard day at the office simply by insisting upon an L. C. Smith Typewriter

which is ball-bearing throughout.

This machine is different—truly so. You will know it the instant you touch its keys. Just go to a nearby Smith office this noon-hour and ask to try a machine. You'll receive a cordial welcome.

... and write for, "The Grayhound of the Office," a booklet that you will find intensely interesting.

The L. C. Smith Typewriter is ball-bearing throughout. Its average runs on balls; each of its type-bars have fifteen glass-hard ball bearings; its shift is ball-bearing; every point, ordinarily subject to friction in a typewriter has had that friction reduced to almost nothing in an L. C. Smith. Swift, silent, sturdy—your day's work is easier on a Smith.

2 TABLETS Every 3 Hours
BREAKS THAT COLD
Hill's Cascara Bromide Quinine will break your cold in one day. Taken promptly it prevents colds, influenza and pneumonia. Demand red box bearing H. H. Hill's portrait. All drug stores. Price 30c.

CASCARA BROMIDE QUININE

Original Virtue.
If we have accepted the doctrine of original sin, we should also accept the doctrine of original virtue. In some natures the will to righteousness is a native as the will to wickedness is in others.

Curious Trait of Chameleon.
A chameleon, when unfolded, forces the power to change its hues, and the entire body remains a unit form color.

Disease Germs.
Disease germs are tiny little organisms that have to eat to live no less than human beings. That's why they die so quickly in clean places.

Baby's Diet.
Baby's conferences throughout the country uniformly disclose the fact that malnutrition is the most common ailment among the small children. This condition results not so much from overfeeding as from bad habits of eating.

OAKLAND COMPANY IMPROVING PLANT TO BOOST OUTPUT

Pontiac, Mich., Nov. 10.—Extensive alterations and new machinery equipment which have resulted in practically rebuilding the entire interior of the Oakland Motor Car company factories have finally been finished.
The machinery and alterations have involved an outlay of approximately \$2,000,000, which is in addition to the new \$3,000,000 Fisher Body corporation factory completed a month ago adjacent to the Oakland factory to build Oakland bodies.
This outlay of \$4,000,000 gives the Oakland plant a capacity of 500 cars a day, twice its previous capacity. At the present time the company has an output of 300 cars daily, which is above the peak production of the banner months of 1922.
The two fundamental improvements to facilitate production have been the establishment of a complete conveyor system throughout the factories and the installation of approximately new machines of special design which combine the efficiency of the former required special machines. These machines enhanced the efficiency of manufacturing methods in addition to adding to the productive facilities of the factories.
Tunnels connect the various plants and through these underground passages, a monorail system of conveyor speeds the unfinished products from factory to factory for the final assembly.
Every handling of the heavy parts of the car has been made automatically as far as possible.
By the installation of almost entirely new machinery in the engine plan, new specially designed tools and a conveyor system, the production of the motor plant has been doubled, besides affording room in the same building for a complete axle plant.

FORD NOW MAKING OWN WIRE FOR USE IN CAR ARMATURES

Detroit, Mich., Nov. 7.—Because of the many failures to meet specifications for wire used in winding armatures of starter generators used on Ford cars, the Ford Motor Company has itself gone into the wire manufacturing business. This new industry at the Highland Park plant, though not yet in full production, is at present turning out every day some 70 miles of fine insulated copper wire. The making of 6,500 generator units daily calls for the absolute standardization of parts, particularly wire size. If the wire winding on the armatures is slightly off size, or if the insulating cover is a bit thick or irregular, either the winding will not fit in the armature segments or lower generator efficiency will result.
So, with outside wire not giving full satisfaction, the company determined to make its own and improvements and simplification of standard wire making machinery have placed this plant ahead of almost any others in quality and economy.
One interesting drawing operation is where the wire passes through eight diamonds, each reducing the size a few thousandths of an inch. The cost of each diamond is as high as \$300 and it takes several days of continuous drilling with diamond drill in order to pierce it. They can be used about six months without appreciable wear.
Cotton, used for the wire covering, is also made by the company and is spun from fine cotton imported from England.
The new wire, which in every way meets the high standards of Ford manufacture, has brought a general improvement in the production of starter generators.—Adv.

Miss Hazel Boyce entertained last evening in honor of Misses Esther Knepp and Roxanna Shope, who have just returned from a five months' tour of western states, at which time the engagement of her sister, Miss Grace Boyce, to Clyde N. Bartley, was announced.

Million-Dollar Cut in Farmers' Bills
Reduction Secured by Farm Bureau and Allied Interests.

A \$1,000,000 cut in the farmers' freight bill has been secured by the farm bureau and allied interests in obtaining from the Interstate Commerce commission a final ruling on the charges upon mixed carloads of live stock.

The mixed carload case was first submitted to the Interstate Commerce commission about three years ago. Last year the commission rendered a decision. The case was later reopened upon a petition from the carriers.

The rule which had previously applied provided that charges should be assessed upon a basis of minimum weight which was the highest applicable upon any kind of stock in the car and that the rate should be the highest applicable upon any kind of stock in the car. This made the charges for a mixed carload of hogs and cattle considerably higher than the charges for a straight carload of either.

The farm bureau, together with the others interested called attention to the fact that this method of making charges seriously discriminated against co-operative organizations, and was not in accordance with the spirit of fair play. It was insisted that while such a rule might be proper for dead freight which ordinarily loads much in excess of the minimum weight, it was not at all proper upon a commodity like live stock. The Interstate Commerce commission apparently felt that the farm bureau argument was justified. The rule now prescribed to be put in effect on or before September 18, 1923, is as follows:

(a) "When cattle, calves, hogs, sheep, lambs, goats, kids, horses, and (or) mules are shipped in mixed carloads, charges shall be based on the carload rate and minimum weight for that kind of stock which on a straight carload basis produces the highest charge, subject to the exceptions in (b) and (c) below.

(b) "In no case, except as provided in paragraph (c) shall the charges per car be less than on a straight carload of the highest rated kind at actual weight of the mixed shipment.

(c) "Charges on mixed carload shipments of cattle and calves shall not exceed charges computed on basis of the cattle rate at actual weight of the entire shipment or at the cattle minimum weight if greater."

About 25 per cent of the receipts at the large markets consists of mixed cars. The present ruling will mean a freight saving of from \$3 to \$5 a car.

Experience that is given away is seldom appreciated.

The Elephant's Foot.
The elephant is a good traveler. On level ground a fast horse can outrun him, but if he is loaded he would leave the horse behind. His foot is padded in a hugh-like skin, with a heavy padded bottom.

Baby's Diet.
Baby's conferences throughout the country uniformly disclose the fact that malnutrition is the most common ailment among the small children. This condition results not so much from overfeeding as from bad habits of eating.

Disease Germs.
Disease germs are tiny little organisms that have to eat to live no less than human beings. That's why they die so quickly in clean places.

GETTING READY FOR GAME WITH 'BURG NEXT SATURDAY

The local High football squad have again begun practice for the coming Saturday when they play Phillipsburg here. All regulars reported excepting "Ken" Johnston who was injured in Saturday's game at Lock Haven. Coach Reed and Steele are putting their proteges thru a stiff drilling and state the Clearfield team will be in fine shape for Saturday's contest. Starting with a light workout Monday afternoon of kicking and handling the ball, the varsity reported Tuesday afternoon and after a stiff drill on tackling and signal drill they engaged in a short scrimmage with the junior varsity and piled up 4 touchdowns over Coach Steele's squad Don Neale, who was injured early in the season has reported again and expects to shape for latter games.

"Foss" Mitchellree, Clearfield High's whiffwind quarterback, although weighing but 135 lbs he is found a constant menace by all opposing eleven. His all-around work on the defense and offense prove him among the leading quarterbacks in the conference. Mitchellree directs play for the locals and although this is his first year at the quarterback post he runs his team like a veteran. He is a demon at open field running and eludes tacklers with much ease and it was by one of these runs that he scored Clearfield's only touchdown against Lock Haven High Saturday.

On the defense he plays safety man and his ability to return kicks is far reaching.

Things are quite lively in South. A man was arrested there for claiming a razor boat four acres.

Idaho man wants divorce because his wife would cook nothing but eggs. She just agreed him on.

Many scalin costs are being sold for winter. Many of these coats were worn by rabbits.

A Georgia farmer who wondered if robbers would get \$500 out of his coffee po. found they would.

A policeman shot a burglar in New York. Perhaps he will claim he didn't know it was loaded.

Chicago barber attacked a man with a snide. Wash your head before getting a haircut.

Our oil output is increasing. And since school opened the custer oil intake has increased.

The federal bonus bill rates another wound chevron

EDUCATION WEEK IN SCHOOLS

American Legion Will Have Generous Aid in Conducting Program Beginning November 12.

The observance of American Education week, a movement sponsored by the American Legion, has received whole-hearted co-operation from school, church and civic organizations, has again been designated, and will begin Sunday, November 12, at the time set. Legion posts throughout the country will unite in an effort to make this practically every school day in the United States may profit from the slogan for the 1923 observance, "Visit the Schools Today," and is expected to call more interest in the education of learning on the part of the parents. Garland W. Powell, director of the National Americanism campaign of the American Legion, has outlined a definite program for the movement, which is receiving in support of school authorities in every section of the country.

Each day of the week has been set aside for a particular consideration according to the program outlined by Mr. Powell. Beginning with Sunday, when pictures of all denominations will deliver sermons on the relationship of the church and the school, all phases and influences of school life will be touched. Monday, according to the program, is to be devoted to American Constitution day, when it is hoped that a concise idea of citizenship may be obtained by distribution of the instrument which makes it possible. The observance of

Garland W. Powell.

It is especially calculated to benefit the students. The program and methods will form the basis for the first day's observance, which is to include flag etiquette, patriotic practices of a patriotic nature which the Legion has played a large part in formulating. The second day is to be of particular significance to schools and to the teachers, and topics of training of the day, adequate pay for teachers, better facilities for schools, "National day" is the title assigned to the Thursday. Formulation of a plan for the study of reading, writing for both children and adults will be the aim for this day. It is the most vital feature of the program. The Friday when community spirit and its relationship to the school of the nation will be topics of study. Adequate playground facilities and general physical education will be topics of study.

Through efforts of the Legion and other authorities, who co-operated in the movement last year, many thousands visited the schools daily. The purpose of the observance was general and the more ambitious program of this year is expected to bring about a wider recognition of the position of the Legion in the program.

POST WILL CONDUCT SCHOOLS

Clear Post Branch (Fla.) Organization is Planning Kindergarten; Extend Program in 1924.

The American Legion is performing a distinct public service in West Palm Beach, Fla., where the local post is planning and planning sponsor for a kindergarten. Twenty-five children will attend the Legion's school during the winter months.

The kindergarten is under supervision of the city school authorities, and could not have been opened except for the participation of some outside agency to furnish necessary funds. Meeting the necessity for the early training of the little folk, the Legion has taken steps to supply the need, and has employed two teachers. It is anticipated that a waiting list of the kind of parents. If the school is successful, the Legion may expand its program in 1924.

Of Garretts True. "Garretts" are not as stupid as they used to be.

Garretts—No. They park them at the dance now—American Legion Weekly.

When Men Criticize. As a man grows to realize the limitations of his ability, it makes him more critical of that of others.

Curwensville's Own Column

Crucifixion Refractories brick yard has been shut down for three or four days on account of an accident to the road engine which hauls the clay from the mines. By tomorrow at least the yard will be running regularly again.

Jno. Kelly and son, who went turkey hunting in Fulton county, returned with one bird. Norris, Whittaker, and Bloom, who went to Huntingdon county on the same errand, returned minus a lot of ammunition and without a single bird. A native wanted \$10 for one, but the Curwensville hunters said nix.

The prospects for the numerous mines round about here having regular work this winter are not very bright. One miner tells us that if the men get two to three days a week they will consider themselves in luck. Many are seeking work in other industries that will bring them a living wage.

The funeral of William Wells will be held from the home on Thursday afternoon. Services will be conducted by a Lutheran minister and members of Bethesda lodge, I. O. O. F. Interment in Oak Hill cemetery.

The American Legion Auxiliary will hold a food sale on Saturday, Nov. 10th, in vacant room of Fred Robinson's, beginning at 10 a. m. All kinds of good cakes, pies and candy will be on sale. The ladies request a liberal patronage.

Yesterday was all that the weather should be for a good turnout of voters on an election day. The First Ward voters were slow in voting until about four o'clock, when there was a continual stream from the public building where the voting was done. The Second Ward presented a much more animated and stirring scene and voting was continual all through the day. It being Woodward's home ward, his neighbors turned out en masse to give him a boost toward a large majority. The ladies of this section of town seemed to have more interest in the result of the election than the men did themselves. In this end of Pike township, the voting place being on Ridge avenue, a larger vote was polled than in years. Just why such a large body of the farmer element turned out at this particular election was more than was learned, but they were there at any rate. As this writing the vote has not been tallied sufficiently for one to even make a guess as to who the fortunate candidate will be, but as a general rule there was not much "cutting" done by either party.

A number of the members of the Junior Literary Society have asked us to have published in the Curwensville column their program which will be carried out next Friday afternoon: Selection..... Orchestra President's Address Clifford Kephart Solo..... Theresa Passarelli "The Debutin' Society" John Hudson Cornet Solo..... Joseph Errigo Recitation..... Marie Smith Whistling Solo..... Helen Ripert Selection..... Orchestra Debate: "Resolved that there is more

pleasure in pursuit than in possession." Affirmative: Gordon Kephart, Catharine Pifer; negative: Ansel Bloom, Joseph Errigo.

Duet..... Helen Traister, Louise Kittlerberger

Decision of Judges.....

Dialogue, "The Misfit Advertisement".....

Silas Green..... Al Mumma

Mahitable Green..... La Rue Downs

Lettie Snow..... Hilda Passarelli

Jack Snow..... Orville Johnston

Grandmother..... Edith Bremner

Quarries: Mura y Clark, Harold M. Feiden, Orville Johnston, Clifford Kephart.

Hidden Music (?).....

"The Red and White" Hilda Passarelli

Selection..... Orchestra

Born, on Sunday morning, November 4th, a daughter to Mr. and Mrs. Vincent Bemko, South Filbert street.

A 15-year-old daughter of Charles Middleton, Nantuxton, is confined to her home by an attack of scarlet fever. Also an eight-year-old son of Garard Buxard, residing in the same neighborhood.

A number of ladies, friends of Mrs. Percy Holton, took her Pine street residence by storm Monday evening.

They were all masked and otherwise triggered out so that Mrs. Holton could not tell one from another. Finally, the hubbub of the visiting ladies appeared, and there was some talk of guessing when each proceeded to pick out his special spouse from the bunch of masqueraders. Some of the males were not very good guessers and grabbed somebody else's wife. A delightful evening was spent nevertheless.

Miss Esther Twigg and her sister, Mrs. John P. Irvin returned home Monday evening from a week's trip to Philadelphia.

WOODLAND RESIDENTS MARRIED ON MONDAY

Paul Jennings Dugan and Miss Grace Dorothy Albert, both residents of Woodland, were united in marriage by Justice of the Peace C. Irwin Lewis at his office in Hollidaysburg Monday afternoon at 4:30 o'clock. The bride is a stenographer and the groom a mine foreman. At the conclusion of their wedding trip the newlyweds will take up their residence at Woodland.

Progress.

Progress in human history has been traced by the destruction of barriers. While science has found a way to span the seas and bridge the continents, philosophy has made planes of thought on which men of every race may meet together in harmony of faith and purpose.—Walter S. Young.

Try it.

Difficulties of carrying on a conversation in a moving train or in a subway can be eliminated partly if the person being addressed will close his ears with the finger tips. Without speaking his voice above the ordinary tone, the speaker then may be heard plainly, despite the conflicting noises.

Valuable Accomplishments.

To hold one's tongue is a valuable accomplishment; next best alternative is self-sought segregation.

Negro Blood in Alexandre Dumas.

Alexandre Dumas, the great French romantic novelist, was born at Villers-Cotterets, Aisne, France, July 24, 1802. He died at Paris December 5, 1870. His father, Gen. Alexandre de la Paillette Dumas, was the natural son of the Marquis Alexandre Dary de la Paillette, a rich politician of Santo Domingo, and of a negress whose name was Dumas.

Have Largest Leaves.

Largest leaves in the world are of the Inal palm, growing on the banks of the Amazon and reaching a height of 50 feet and breadth of 12 feet.

Your spectacles and eyeglasses, too, should agree with costume and occasion

Of course the cut and hue of dress are important factors in appearance. But don't forget glasses! If they clash with costume and occasion, the most attractive of faces is handicapped and the clearest gown avails you little. But it is quite easy to make sure that your glasses agree with you, your costume and the occasion. Let us fit you with the proper spectacles and eye-glasses for dress, for sport and semi-dress. Besides style correctness, you will thus get quality beyond question and the utmost in scientific precision.

Didn't Know His Good Fortune.
"Mister," began the seedy-looking man, "I haven't got no home and—"
"No taxes to pay," interrupted the man addressed; "no coal bills; no worry lest the landlord raise your rent. Permit me to congratulate you." "I have no job and—" "Lucky chap! No danger of getting fired." "But I'm sick, mister. I have no money and—" "No temptation to spend it foolishly on able-bodied beggars. Why, you're the very child of fortune. Good day!"
—Boston Transcript.

BRACE UP!

Do you feel old before your time? Is your back bent and stiff? Do you suffer urinary disorders? Don't do, despair—profit by Clearfield experience. Clearfield people recommend Doan's Kidney Pills. Here's a Clearfield resident's statement.

Geo. J. Kragle, painter, 306 E. Locust St., says: "A cold settled in my kidneys and I was bothered mostly with backache. The most troublesome times were when I stood in one position too long or if I stopped to do any lifting. The sharp kink took me in my back and it was hard to straighten. At times, my kidneys were too frequent in action. Doan's Kidney Pills were recommended to me and I got a box at Aughinbaugh's Drug Store. They drove away the backache and improved the condition of my kidneys."

60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

NOW—

24 Hour Recharging

That's all it takes us now to put the punch back into your battery when it's run down.

And if the battery is not completely recharged, we can do it in a lot less time—anywhere from 8 hours up.

You save two or three days' time in getting your battery back—two or three days' rental battery charges.

It's Done by a New System

called the "constant potential" system, the very latest thing of its kind.

You'll find all the other features of our service just as up-to-date.

We have just the Willard Battery you need for your car—at the price you want to pay. Also, a complete line of Willard A and B Radio Batteries. Ask for free book, "Better Results from Radio".

VOLUME XVII

THE CLEARFIELD PROGRESS, CLEARFIELD, PA.

WEDNESDAY EVENING, NOVEMBER 7, 1923.

NUMBER 263

G. O. P. SWEEPS COUNTY

**CHASE ELECTED JUDGE BY OVER 2,000;
DALE AND WEIMER BIG WINNERS; THIRD
PLACE GOES TO BLAKE W. McCracken**

**Ralston Elected By Over 5,000 Majority; Brat-
ton Leads Brown By 2,500; Woodward Noses
Out William Hagerty By Better Than 500**

A. G. O. P. VICTORY ALL ALONG THE LINE

The accompanying "Vote By Precincts" will be com-
pleted in tomorrow's issue. The totals given in the head
and news story are taken from returns compiled by The
Progress and include the entire county with the exception
of Coalington, Karthaus, Morrisdale, Curwensville of Pike
Township, Union and the Register, Prothonotary and Con-
troller in Coalport and the third ward of DuBois.

THE TOTAL

For Judge	
CHASE, Republican	10,583
SNYDER, Democrat	8,043
Controller	
WOODWARD, Republican	8,831
HAGERTY, Democrat	8,334
Prothonotary	
RALSTON, Rep., Pro., Soc.	11,041
CHAPLIN, Democrat	5,577
Register and Recorder	
BRATTON, Republican	9,806
BROWN, Dem. and Pro.	7,206
County Commissioner	
DALE, Republican	6,725
WEIMER, Republican	6,505
FARRELL, Democrat	5,092
McCRACKEN, Dem., Pro., Ind.	8,223
THORPE, Pro. and Soc.	1,820
BOYCE, Independent	4,620

The largest vote ever recorded in Clearfield County was
polled at Tuesday's election. Weather conditions were ideal
and the strenuous efforts by the friends of the rival candidates
for Judge in the closing weeks of the campaign, together with
the County Commissioner fight, were responsible for this record
vote. The result was, as predicted by The Progress, a sweep-
ing victory for the entire Republican ticket.

A. R. Chase, the Republican candidate for Judge, and one
of the leaders among the younger members of the Bar, carried
the county over his Democratic opponent by a majority that
will run close to 2500.

Prothonotary George W. Ralston, who had the Republi-
can, Socialist and Prohibition nominations, led the ticket with
11,041 votes, with seven districts out, and will have a majority
over John S. Chaplin, his Democratic opponent, of approxi-
mately 5,500.

For Register and Recorder Milford Bratton had a majority
of 2,600 over E. V. Brown, Democrat and Prohibitionist, with
seven districts to hear from.

The County Controller fight between A. G. Woodward,
Republican, and W. A. Hagerty, Democrat, was a real battle,
Mr. Hagerty's personal strength causing him to run up within
500 votes of his opponent.

The County Commissioner fight developed into a real
scramble, the independent ticket cutting real ice. However,
the Republican members of the "old board" came under the
wire with a safe lead, while Blake W. McCracken, who had
the Democratic, Prohibition and Independent nominations, pol-
led 1600 more votes than "Old King Tut," who leads Weimer
by 250 votes. John Boyce, the other independent candidate,
received more than 4,600 votes, but ran 1,700 votes behind
Weimer. M. L. Farrell, present Democratic member of the
Board, received 5,092 votes. W. T. Thorpe, one of the Republi-
can primary candidates, who received the Prohibition and
Socialist nominations and whose name was placed upon the
ticket, received 1,820 votes for Commissioner.

The result was all that could have been expected by the
Republican organization, which waged such a strenuous cam-
paign and once more establishes the fact that Clearfield is a
rock-ribbed, old-style Republican county, and no mistake
about it.

BOROUGH OFFICES
FILED BY VOTERS;
SPIRITED ELECTION

Harrisburg, Nov. 7.—Some
Democrats and Independents
were swept into office in sec-
tions of Pennsylvania where or-
ganization control is lacking,
returns from the election indi-
cated today.

Outside of Philadelphia, Al-
legheny, Schuylkill and other
machine counties, "Citizens"
Parties, Socialists, Democrats
and Labor Party candidates
made inroads where Republi-
can strength before had been
conceded.

The 4 constitutional amend-
ments, including the \$50,000,
\$100,000 road bond issue, were
carried by the majority, rolled
up in about ten counties. Philadel-
phia and Pittsburgh organiza-
tions supported the bond pro-
posal.

Democrats resumed control
in a dozen counties as a result
of bitter factional contests. Re-
publican candidates for mayors
were defeated in Reading, Al-
lentown, Lebanon, Williams-
port and York.

William Freeland Kendrick
was chosen Mayor of Philadel-
phia by a plurality exceeding
240,000.

Democrats gained practical-
ly complete control of Berks,
Cumberland and Franklin coun-
ties for the first time in years,
and in York, Adams, Perry,
Northumberland, Lycoming,
Mifflin and other central Penn-
sylvania counties, the Demo-
crats were giving the Republi-
cans a close race for the im-
portant offices.

Columbus, O., Nov. 7.—The
Klan fighting was the hottest,
the "Invisible Empire" scored
a clean-cut victory in the elec-
tion of Charles F. Schneible,
who was chosen mayor over
the nearest of his five oppo-
nents by a plurality of 10,000.

Other cities where the Klan
claimed victories are: Newark,
Portsmouth, Tiffin, Elyria, Ak-
ron, Marion, East Liverpool,
Ashland, Springfield, Crook-
ville and Medina.

FRANKE A WINNER
Johnstown, Pa., Nov. 7.—Ex-
Mayor Lewis Franke was win-
ner in the mayoralty fight in
Johnstown, while the entire
Republican city ticket was also
elected.

County returns indicated a
close fight for county treasurer
and for district attorney.
Other county offices were
won by the Republicans.

The largest vote ever polled
in Clearfield borough was cast
at yesterday's election, the total
balloting amounting to a few
more than 2700. J. Frank Syn-
der, the Democratic candidate
for Judge, carried every pre-
cinct in the town and had a
majority of 652 in the borough
over A. R. Chase, his Republi-
can rival, who won the election.
The vote on School Director
resulted in the re-election of
President of the Board A. D.
Bigler. E. Clair Davis and Dr.
Ward J. Wilson were the other
two successful candidates for
School Director.

The free Library proposition
got an awful wallop, every
precinct returning substantial
majorities against the Library.

In the 1st Ward Blair Sykes,
Rep., was elected to Council
over Charles Callahan, Dem.,
present member. The Second
Ward re-elected Geo. M. Rosser
and Ira Jay, both Democrats.
The Third Ward elected two
Republicans, Ralph McKee and
Edward Schenck, while A. G.
Bowe, Democrat, was elected
to Council from the 4th Ward.

The vote for municipal candidates
in Clearfield is as follows:

ODDS AND ENDS
AND THINGS

By J. B. G.

If you want to hear just how little the average man knows about how the public business is transacted just ask the next fellow you meet what his tax valuation is? How much tax he pays. How much of this total is county tax, how much borough or township and how much is school tax. We'll bet you a cent the only thing he can tell you is the amount of his tax, and that he has no idea how the total is made up. But just try it once and see for yourself.

The State Forestry Department erected a fire or observation tower at Paines, Clearfield county, last year and Miss Maude Alma Walther, of Clearfield, has been chosen to man the tower and guard against forest fires in the area affected. The tower is 60 feet high and is located on one of the highest points along Clearfield Creek.

A reader of the City, Minn., Miner kindly pointed out a typographical error in the letter which brought about this explanation:

"There are about 33 letters and pieces in each line of type set in the paper and there are 33 times 33 chances of error in each line."

"There are 5,613 pieces in a column and 20,000,000 chances to make a mistake besides innumerable chances of having inaccurate statements made. Figure it up yourself."

"There are 33 columns in the paper each time it is published and each column runs the same chance of mistake. Everyone makes mistakes."

Collections under the Federal income tax laws average \$107.98 per tax payer, it is shown in the newest study of returns to be completed by the Treasury Department.

The study deals with collections made in 1922, which were based on income earned in the preceding year. Collections of 1922, when studied, will show a slight increase over 1921, it is believed. The nation's income was low in 1921, which will be remembered as a year of depression and widespread unemployment.

Net income per tax payer under the 1922 collections averaged \$2,288.56. Federal income tax payers number out of each 100 residents of the United States.

In New York, whose residents contributed the largest income tax total of any state, the average tax paid was \$197.60. Rhode Island was close behind New York with an average tax payment of \$192.20 per tax payer.

In five other states the average tax per payer was in excess of \$100. These states were Illinois, Maryland, Massachusetts, New Jersey and Pennsylvania.

GOV. RITCHIE WINS
Baltimore, Md., November 7.—Governor Albert C. Ritchie, Democrat, was re-elected Governor of Maryland in the elections yesterday. His plurality over Alexander Armstrong, Republican, was 41,000.

DEMOCRATS WIN IN KENTUCKY

Covington, Ky., November 7.—Democracy returned to the saddle in Kentucky after four years of Republican government when W. J. Fields, of Owsley, was elected Governor over Charles I. Dawson.

The Democratic nominee won by 28,000 plurality.

SHOULD EXTEND
APPLE WEEK SAYS
STATE PHYSICIAN

Harrisburg, Nov. 6 (United Press)—"Apple Week" from the health standpoint might well be extended to cover the entire week, Dr. Charles H. Miner, secretary of health, declared in his weekly health talk today.

"Practically all ripe fruits are wholesome and digestible, the apple particularly so," said Dr. Miner. "It is mildly laxative and in addition to the nutritional and energy producing qualities derived from the presence of sugar and its mineral constituents, it contains vitamins, those mysterious elements which have been demonstrated as absolutely necessary to the transference of the food which we eat into living tissues."

"Because apples are plentiful in Pennsylvania and more easily obtainable than other fruits and because, in addition, they may be kept the year round, physicians in general recommend apples as a part of the regular diet. They are suitable for the lunch basket, they are pleasing at the table and satisfying when the period between meals has been prolonged."

"A justifiable argument in favor of apples is that when eaten raw, they are of distinctive service for their cleansing effect on the teeth. While 'an apple a day keeps the doctor away' may not be accepted in its literal sense there is no doubt that the eating of ripe apples is in a general way conducive to good health."

HENDERSON WINS
A PLACE ON HIGH
COURT OF STATE

Philadelphia, Nov. 7.—Judge John J. Henderson of Meadville was selected to the State Superior Court by the Republicans of Pennsylvania for a term of 10 years. He was supported in all voting by the regular Republican organization. His Democratic opponent was Chas. D. McAvoy of Norristown, former Federal District Attorney for the 3rd district of Pennsylvania. The socialist candidate

was H. J. Ellis of Philadelphia. Ellis candidate received about the normal party vote according to reports.

OH WELL, YOU KNOW HOW IT IS!

Varieties Of John Smith.

In Latin John Smith became Johannes Smithus; in Italian he is known as Giovanni Smithi; in French, he becomes Jean Smith; the Russians call him Iohann Smithovskii; the Poles know him as Jan Smithowski; the Welsh as Iihon Smithid; the Hollanders as Hane Schuidt; the Greeks as Ion Smithos and the Spaniards as Juan Smithus, while in Turkey he is disguised as Yoe Seef.

Old Woodwork Made New.

A wood dye is a good finish for old woodwork. If the old finish is unsatisfactory and you do not wish to remove it a wood dye may be put over it. There are a number of different shades made. A final finish of an enamel makes the wood look as good as new.

Good Location for a Light.

There are two lights which seem almost necessary in the average kitchen. One is between the windows over the kitchen sink and the other is just inside the hood over the stove so that the light is thrown directly on the top of the stove. If these two lights are properly placed no other light is absolutely needed.

Perhaps.

It's a known fact that engine surging holds back. So they do after a while, only then the husband is found to let go.—Exchange.

Physical Health means Beauty!

HEALTH and beauty go hand in hand. Where the system is run down—the face drawn and haggard—the body limp and lifeless—beauty is missing. Looks of pity supplant those that might have been gazes of admiration.

Restore your health and beauty will take care of herself. S. S. S.—the rich blood builder—rekindles the spark of health and lights the blaze of beauty by building red blood cells. The nerve power of your system finds life in these very blood cells. Build more red blood cells and your nerve power will increase. S. S. S. builds them. Rich blood will tingle through your system. That lost charm will return. Your entire system will be repaired. You will be ready to cope with the impurities and blemishes that handicap beauty.

As physical health means beauty so, too, does S. S. S. mean beauty. For S. S. S. means systems that are free from impurities—pimples, blackheads, acne, boils, eczema, rheumatism. S. S. S. and good health go hand in hand.

S. S. S. is made of pure vegetable ingredients. It is sold at all good drug stores. The large size bottle is more economical.

S.S.S. Makes You Feel Like Yourself Again

Each Man's Rights Limited.

Every man must work out his own salvation, but in doing so must recognize that millions of other men are doing the same thing and have rights as well as he. Therefore, what he does must not unnecessarily interfere with what they are doing.

Safe Anyhow.

"I say, Tom, we are close to my house. Won't you come in and have a bit of dinner?" "Thanks. But how about your wife?" "Oh, that's all right! If her cooking is successful, she'll be pleased to have another eat it; and if it isn't, I shall."—Boston Evening Transcript.

Sometimes.

A pessimist is sometimes ashamed of himself; but an optimist never is, more's the pity.

Still, Strong Belief in Charms.

Magic potions, abracadabra for charms, the superstitious and the luck lore of all peoples are as eagerly studied today as ever. If any one questions this let him try to buy a fairly standard, but not at all rare, treatise on the subject at any second hand shop where the dealer sorts his books with any care.—Exchange.

Jap Barber.

Barbers in Japan, in addition to cutting their customer's hair, clean out their ears with a contrivance somewhat like a series of blunt knitting needles padded on the ends with cotton.

Quite So.

Jud Tunkins says the man who gets the best of the bargain is usually the one most willing to let bygones be bygones.

Progress Editorial For Women

NEW HATS FOR MOTHERS TOO.

By FLORENCE DAVIES

After the wise ones get all through discussing the young girl of today they usually settle back on the same old conclusion. And that is, that "after everything is said and done it's up to mother."

Which makes it nice for mother who is used to being blamed for most everything from the color of her husband's shirts to the morals of the community.

But young folks and especially daughters are most decidedly up to mother. They are certainly her first business in life, and the club paper, the parlor furniture and even the church social have to come second. To be sure all of these things are a part of the job of making good daughters. For daughters have to have as near as possible the right kind of a world to live in and right kind of home surroundings.

But there is a still more personal way in which the task of making daughters into fine women is very definitely up to mother.

That is the personal hold which a mother has on the love and admiration and respect of her daughter. When every other argument fails the personal equation holds, if mother's side of it is big enough. No matter how strong the outside influences there's one last tie that holds, and that is the down-right love and affection which a girl has for her mother.

There are things she will not do, just because doing them would hurt her mother and that ends it.

A good many mothers think that they have that kind of a hold on their daughters when they haven't it at all. All they have is just a little coating of ordinary affection with a thin wash of fear-of-the-consequences over that, which, with good luck, will last till a girl is grown.

But there is a deeper relationship than that which will stand any strain. It is a relationship of real love and deep seated respect.

Right there is where a good many mothers fail. They forget about the admiration and respect and bank on the love, taking love for granted as one of the eternal verities that is decreed from heaven. Children are supposed to love their parents and that ends it.

But mothers and fathers, just like strangers and neighbors, have to be

worthy of admiration and respect, if their children are going to give it to them.

Sometimes mothers are so eager to serve a girl's caprice that they forget that holding themselves with a little dignity, demanding a little attention and coming in for their share of the good clothes is part of the game.

Children are far more sensitive to the appearance of their parents than grown people guess.

Evangeline Booth who knows girls through and through, says that letting daughter have a new hat every season and mother ones in five years is bad business. A mother ought to be one of the most attractive women that her daughter knows.

"Superficial," you say. But life is made up of just such outward signs and symbols of deeper things. It does not pay to slight them.

Love of course, is part of the secret, and love is made of service and self sacrifice and devotion. But admiration and respect deal somewhat in the things we call superficial.

Obintegrating. As It Were.

One day while on the street I got one of the most prominent and the most business men of our town. As he passed me he raised his hat and in doing so he knocked his cigar from his mouth. Trying to catch the cigar, he knocked his hat off. Also trying to keep that from falling, his eyeglasses slipped from his nose, fell to the waik and broke. Outraged up his scattered belongings, he remarked that it seemed as if he was coming to pieces.—Exchange.

FINE GEMS FOR FINE WOMEN

Jewelry, you might say, is made for womankind. Few men comparatively are given to the habit nowadays, but with women it is traditional, almost imperative to wear something of the kind—and what she does wear should be above criticism. At this shop you will obtain this super active kind of jewelry.

W. W. O'BRIEN

A Million a Month

Nearly a million dollars' worth of switchboards and other Central Office equipment is being added to the Bell System in Pennsylvania every month this year.

Every Central Office is included in the construction program—the greatest ever undertaken in this state.

Nearly a million a month inside our buildings! And our 1924 expectation is a monthly average of a million, two hundred and fifty thousand.

Construction is costly now? Yes, but telephones are needed. They are needed now. Next year or the year after won't do.

We are building now, because the demands for service are with us now.

The Bell Telephone Company of Pennsylvania

2 TABLETS Every 3 Hours
BREAKS THAT COLD
Hill's Cascara Bromide Quinine will break your cold in one day. Taken promptly it prevents colds, influenza and pneumonia. Demand red box bearing H. H. Hill's portrait. All druggists. Price 30c.

Curious Trait of Chameleon.
A chameleon, when unfolded, shows the power to change its hues, and the entire body remains a uniform color.

Original Virtue.
If we have accepted the doctrine of original sin, we should also accept the doctrine of original virtue. In some natures the will to righteousness is a native as the will to wickedness is in others.

Discipline Germs.
Discipline germs are tiny little organisms that have to eat to live no less than human beings. That's why they die so quickly in clean places.

Baby's Diet.
Baby's conferences throughout the country uniformly disclose the fact that malnutrition is the most common ailment among the small children. This condition results not so much from overfeeding as from bad habits of eating.

Experience that is given away is seldom appreciated.
The elephant is a good traveler. On level ground a fast horse can outrun him, but if he is asked to climb a hill, the horse is left behind. His foot is placed in a hock-like position, with a heavy padded bottom.

Curious Trait of Chameleon.
A chameleon, when unfolded, shows the power to change its hues, and the entire body remains a uniform color.

Original Virtue.
If we have accepted the doctrine of original sin, we should also accept the doctrine of original virtue. In some natures the will to righteousness is a native as the will to wickedness is in others.

Discipline Germs.
Discipline germs are tiny little organisms that have to eat to live no less than human beings. That's why they die so quickly in clean places.

OAKLAND COMPANY IMPROVING PLANT TO BOOST OUTPUT

Pontiac, Mich., Nov. 10.—Extensive alterations and new machinery equipment which have resulted in practically rebuilding the entire interior of the Oakland Motor Car company factories have finally been finished.
The machinery and alterations have involved an outlay of approximately \$2,000,000, which is in addition to the new \$3,000,000 Fisher Body corporation factory completed a month ago adjacent to the Oakland factory to build Oakland bodies.
This outlay of \$4,000,000 gives the Oakland plant a capacity of 500 cars a day, twice its previous capacity. At the present time the company has an output of 300 cars daily, which is above the peak production of the banner months of 1922.
The two fundamental improvements to facilitate production have been the establishment of a complete conveyor system throughout the factories and the installation of approximately new machinery of special design which, combining the efficiency of manufacturing methods in addition to adding to the productive facilities of the factories.
Tunnels connect the various plants and through these underground passages, a mechanical system of conveyor speeds the unfinished products from factory to factory for the final assembly.
Every handling of the heavy parts of the car has been made automatically as far as possible.
By the installation of almost entirely new machinery in the engine plan, new specially designed tools and a conveyor system, the production of the motor plant has been doubled, besides affording room in the same building for a complete axle plant.

FORD NOW MAKING OWN WIRE FOR USE IN CAR ARMATURES

Detroit, Mich., Nov. 7.—Because of the many failures to meet specifications for wire used in winding armatures of starter generators used on Ford cars, the Ford Motor Company has itself gone into the wire manufacturing business. This new industry at the Highland Park plant, though not yet in full production, is at present turning out every day some 70 miles of fine insulated copper wire. The making of 6,500 generator units daily calls for the absolute standardization of parts, particularly wire size. If the wire winding on the armatures is slightly off size, or if the insulating cover is a bit thick or irregular, either the winding will not fit in the armature segments or lower generator efficiency will result.
So, with outside wire not giving full satisfaction, the company determined to make its own and improvements and simplification of standard wire making machinery have placed this plant ahead of almost any others in quality and economy.
One interesting drawing operation is where the wire passes through eight diamonds, each reducing the size a few thousandths of an inch. The cost of each diamond is as high as \$300 and it takes several days of continuous drilling with diamond drill in order to pierce it. They can be used about six months without appreciable wear.
Cotton, used for the wire covering, is also made by the company and is spun from fine cotton imported from England.
The new wire, which in every way meets the high standards of Ford manufacture, has brought a general improvement in the production of starter generators.—Adv.

GETTING READY FOR GAME WITH 'BURG NEXT SATURDAY

The local High football squad have again begun practice for the coming Saturday when they play Phillipsburg here. All regulars reported excepting "Ken" Johnston who was injured in Saturday's game at Lock Haven. Coach Reed and Steele are putting their proteges thru a stiff drilling and state the Clearfield team will be in fine shape for Saturday's contest. Starting with a light workout Monday afternoon of kicking and handling the ball, the varsity reported Tuesday afternoon and after a stiff drill on tackling and signal drill they engaged in a short scrimmage with the junior varsity and piled up 4 touchdowns over Coach Steele's squad Don Neale, who was injured early in the season has reported again and expects to shape for latter games.

Million-Dollar Cut in Farmers' Bills

Reduction Secured by Farm Bureau and Allied Interests.
A \$1,000,000 cut in the farmers' freight bill has been secured by the farm bureau and allied interests in obtaining from the Interstate Commerce commission a final ruling on the charges upon mixed carloads of live stock.
The mixed carload case was first submitted to the Interstate Commerce commission about three years ago. Last year the commission rendered a decision. The case was later reopened upon a petition from the carriers.
The rule which had previously applied provided that charges should be assessed upon a basis of minimum weight which was the highest applicable upon any kind of stock in the car and that the rate should be the highest applicable upon any kind of stock in the car. This made the charges for a mixed carload of hogs and cattle considerably higher than the charges for a straight carload of either.
The farm bureau, together with the others interested called attention to the fact that this method of making charges seriously discriminated against co-operative organizations, and was not in accordance with the spirit of fair play. It was insisted that while such a rule might be proper for dead freight which ordinarily loads much in excess of the minimum weight, it was not at all proper upon a commodity like live stock. The Interstate Commerce commission apparently felt that the farm bureau argument was justified. The rule now prescribed to be put in effect on or before September 18, 1923, is as follows:
(a) "When cattle, calves, hogs, sheep, lambs, goats, kids, horses, and (or) mules are shipped in mixed carloads, charges shall be based on the carload rate and minimum weight for that kind of stock which on a straight carload basis produces the highest charge, subject to the exceptions in (b) and (c) below."
(b) "In no case, except as provided in paragraph (c) shall the charges per car be less than on a straight carload of the highest rated kind at actual weight of the mixed shipment."
(c) "Charges on mixed carload shipments of cattle and calves shall not exceed charges computed on basis of the cattle rate at actual weight of the entire shipment or at the cattle minimum weight if greater."
About 25 per cent of the receipts at the large markets consists of mixed cars. The present ruling will mean a freight saving of from \$3 to \$5 a car.

FOR SALE: Trained Mine Mules in excellent condition. Just released account of the electrification of mine. For prices and inspection see Mr. Aniel Clemenson, Supt., Empire Coal Mining Company, Clymer, Penna.

It was insisted that while such a rule might be proper for dead freight which ordinarily loads much in excess of the minimum weight, it was not at all proper upon a commodity like live stock. The Interstate Commerce commission apparently felt that the farm bureau argument was justified. The rule now prescribed to be put in effect on or before September 18, 1923, is as follows:
(a) "When cattle, calves, hogs, sheep, lambs, goats, kids, horses, and (or) mules are shipped in mixed carloads, charges shall be based on the carload rate and minimum weight for that kind of stock which on a straight carload basis produces the highest charge

EDUCATION WEEK IN SCHOOLS

American Legion Will Have Generous Aid in Conducting Program Beginning November 18.

The observance of American Education week, a movement sponsored by the American Legion, has received whole-hearted co-operation from school, church and civic organizations, has again been designated, and will begin Sunday, November 18, at the time set. Legion posts throughout the country will unite in an effort to make this practically every school day in the United States may profit from the slogan for the 1923 observance, "Visit the Schools Today," and in order to call more interest in the education of learning on the part of parents. Garland W. Powell, director of the National American Legion, outlined a definite program for the movement, which is receiving assistance of school authorities in every section of the country.

Each day of the week has been set aside for a particular consideration according to the program outlined by Mr. Powell. Beginning with Sunday, when pictures of all denominations will deliver sermons on the relationship of the church and the school, all phases and influences of school life will be touched. Monday, according to the program, is to be devoted to American Constitution day, when it is hoped that a concise idea of citizenship may be obtained by distribution of the instrument which makes it possible. The observance of

Curwensville's Own Column

Crucifixion Refractory brick yard has been shut down for three or four days on account of an accident to the road engine which hauls the clay from the mines. By tomorrow at least the yard will be running regularly again.

Jno. Kelly and son, who went turkey hunting in Fulton county, returned with one bird. Norris, Whittaker, and Bloom, who went to Huntingdon county on the same errand, returned minus a lot of ammunition and without a single bird. A native wanted \$10 for one, but the Curwensville hunters said nix.

The prospects for the numerous mines round about here having regular work this winter are not very bright. One miner tells us that if the men get two to three days a week they will consider themselves in luck. Many are seeking work in other industries that will bring them a living wage.

The funeral of William Wells will be held from the home on Thursday afternoon. Services will be conducted by a Lutheran minister and members of Bethesda lodge, I. O. O. F. Interment in Oak Hill cemetery.

The American Legion Auxiliary will hold a food sale on Saturday, Nov. 10th, in vacant room of Fred Robinson's, beginning at 10 a. m. All kinds of good cakes, pies and candy will be on sale. The ladies request a liberal patronage.

Yesterday was all that the weather should be for a good turnout of voters on an election day. The First Ward voters were slow in voting until about four o'clock, when there was a continual stream from the public building where the voting was done. The Second Ward presented a much more animated and stirring scene and voting was continual all through the day. It being Woodward's home ward, his neighbors turned out en masse to give him a boost toward a large majority. The ladies of this section of town seemed to have more interest in the result of the election than the men did themselves. In this end of Pike township, the voting place being on Ridge avenue, a larger vote was polled than in years. Just why such a large body of the farmer element turned out at this particular election was more than was learned, but they were there at any rate. As this writing the vote has not been tallied sufficiently for one to even make a guess as to who the fortunate candidate will be, but as a general rule there was not much "cutting" done by either party.

A number of the members of the Junior Literary Society have asked us to have published in the Curwensville column their program which will be carried out next Friday afternoon: Selection Orchestra President's Address Clifford Kephart Solo Theresa Passarelli "The Debutin' Society" John Hudson Cornet Solo Joseph Errigo Recitation Marie Smith Whistling Solo Helen Ripert Selection Orchestra Debate: "Resolved that there is more

pleasure in pursuit than in possession." Affirmative: Gordon Kephart, Catharine Pifer; negative: Ansel Bloom, Joseph Errigo. Duet Helen Traister, Louise Kittlerberger

Decision of Judges. Dialogue, "The Misfit Advertisement" Silas Green Al Mumma Mahitable Green La Rue Downs Lettie Snow Hilda Passarelli Jack Snow Orville Johnston Grandmother Edith Bremner Quizzes: Mura y Clark, Harold M. Feiden, Orville Johnston, Clifford Kephart.

Hidden Music (?) "The Red and White" Hilda Passarelli Selection Orchestra

Born, on Sunday morning, November 4th, a daughter to Mr. and Mrs. Vincent Bemko, South Filbert street. A 15-year-old daughter of Charles Middleton, Nantuxton, is confined to her home by an attack of scarlet fever. Also an eight-year-old son of Garard Buxard, residing in the same neighborhood.

A number of ladies, friends of Mrs. Percy Holton, took her Pine street residence by storm Monday evening. They were all masked and otherwise tricked out so that Mrs. Holton could not tell one from another. Finally, the huddles of the visiting ladies appeared, and there was some tall guessing when each proceeded to pick out his special spouse from the bunch of masqueraders. Some of the males were not very good guessers and grabbed somebody else's wife. A delightful evening was spent nevertheless.

Miss Esther Twigg and her sister, Mrs. John P. Irvin returned home Monday evening from a week's trip to Philadelphia.

SMOKE RUN

Last of Bloom, of Olanta, spent Friday evening with his niece, Mrs. H. C. Bailey.

Mr. and Mrs. John Barrett of Beulah called in town on Thursday.

Mr. and Mrs. Walter Neving of Madera, attended the Halloween party on Wednesday.

Mrs. Lewis H. Davis of Madera called in town on Wednesday.

Ed Stiles of Beccaria, was a town caller on Thursday.

Miss Theresa Snaber shopped in Houtdale on Monday evening.

Frank Davis and Lynn Dillen of Smoke Run, were married recently.

Charlie Haynes of Madera was a caller in town Thursday.

Mr. and Mrs. Frank Carline of Atlantic called on their daughter on Wednesday evening.

Pete Garbinsky returned home Saturday from Binghamton, N. Y.

Mrs. Walter Johns, daughter Diana and son William of Madera called on Mrs. H. C. Bailey Saturday evening.

Miss Helen Clancy attended the Halloween party at Bets on Saturday evening.

The Smoke Run Sunday School held a Halloween party on Wednesday evening. All report a good time.

Mr. and Mrs. H. C. Bailey and daughter Pearl, called on Mrs. Edie Dowling on Wednesday evening.

Dave Cathigan of Utahville, R. D. was a Smoke Run caller Wednesday evening.

DRIGGS THEATRE TONIGHT

NORMA'S HERE!

The dear

She'll play Mary Turner, the poor but beautiful shop girl, who, sent to jail because of a crime of which she's innocent—turns up in her persecutors and makes them—pay and pay—

WE'LL SAY

She's great!

And so will you when you see and know what makes her go into a life of—not crime—oh, no! for that would not be within the law.

IT'S A ROLE, WE'LL SAY

Actresses cry to play!

A truly great American play of today. It's about folks like us who do the best we can. And we all know that young and pretty girls who are poor walk a perilous path—these days—before they find themselves in the sanctuary of some good man's arms.

NORMA'S HERE!

WOODLAND RESIDENTS

MARRIED ON MONDAY

Paul Jennings Dugan and Miss Grace Dorothy Albert, both residents of Woodland, were united in marriage by Justice of the Peace C. Irwin Lewis at his office in Hollidaysburg Monday afternoon at 4:30 o'clock. The bride is a stenographer and the groom a mine foreman. At the conclusion of their wedding trip the newlyweds will take up their residence at Woodland.

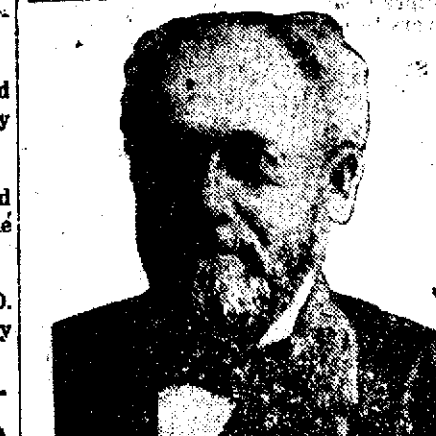

Progress

Progress in human history has been traced by the destruction of barriers. While science has found a way to span the seas and bridge the continents, philosophy has made planes of thought on which men of every race may meet together in harmony of faith and purpose—Walter S. Young.

Try it.

Difficulties of carrying on a conversation in a moving train or in a subway can be eliminated partly if the person being addressed will close his ears with the finger tips. Without speaking his voice above the ordinary tone, the speaker then may be heard plainly, despite the conflicting noises.

Valuable Accomplishments. To hold one's tongue is a valuable accomplishment; next best alternative is self-sought segregation.

FIFTY YEARS AGO

A young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce, who finally made up his mind to place some of his medicines before the public, and moving to Buffalo, N. Y., put up what he called his "Favorite Prescription," and placed it with the druggists in every state. Dr. Pierce's Favorite Prescription has long been recognized as a tonic for diseases peculiar to womanhood. After suffering pain, feeling nervous, dizzy, weak and dragged down by weakness of her sex—a woman is quickly restored to health by its use. Thousands of women testify that Dr. Pierce's Favorite Prescription has entirely eradicated their distressing ailments. More recently that wonderful discovery of Dr. Pierce's, called An-uric (for kidneys and backache), has been successfully used by many thousands who write Dr. Pierce of the benefits received—that their backache, rheumatism, and other symptoms of uric acid deposits in joints or muscles have been completely conquered by its use. Send 10c to Dr. Pierce, Buffalo, N. Y., for trial pkg. of any of his remedies, or write for free medical advice.

WATER BOTTLES

It has so many uses—as a foot warmer, as a means of applying heat in sickness, and even as a factor in cold drives. Fresh lot from the manufacturer. Special at—

WHAT WILL CONDUCT SCHOOL

High Point School (Fla.) Organization is Planning Kindergarten; Extend Program in 1924.

The American Legion is performing a public service in West Palm Beach, Fla., where the local post is helping and subsidizing sponsor for a kindergarten. Seventy-five children will attend the Legion's school during the winter months.

The kindergarten is under supervision of the city school authorities, and could not have been opened except for the participation of some outside agency to furnish necessary funds. Meeting the necessity for the early training of the little folk, the Legion has taken steps to supply the need, and has employed two teachers.

It is anticipated that a waiting list of the demands of parents. If the school is successful, the Legion may expand its program in 1924.

Of Corsets True.

When men criticize. As a man grows to realize the limitations of his ability, it makes him more critical of that of others.

Order From Our Menu

and you will find all the variety you desire—far more than the average home or family would have in weeks or months. There is a dish for every taste, and all cooked to perfection and served likewise.

P. S. Watch for Armistice Day Dinner Ad.

JORDAN'S

Going to Dress a Doll for Christmas?

Here's a modern doll's outfit—an envelope chemise, a fashionable frock with straight ruffled front and back panels, a cape with a collar and a hood trimmed with a plumed tulle. The ensemble is one to delight the feminine heart.

Snakes Commit Suicide.

The bureau of biological survey says that rattlesnakes are susceptible to their own poison and may cause death by biting themselves, except when severely injured or infuriated and unable to wreak vengeance on their tormentors.

Can't Be Explained.

Philological students are helpless to explain why in parts of the country where "ask" is almost pronounced "ick," "stamping" is pronounced "stomping."

What She Wanted.

Last Saturday we were eating lunch and Madeline had just finished eating a ham sandwich. In asking for another she turned to her mother and said: "Mamma, I want some more meat, but don't wrap it up."—Chicago Tribune.

Stars in Daylight.

Photographs of stars down to the sixth magnitude can be taken in broad daylight. If the photographs are taken through a deep red screen, the stars appear with distinctness. Important results are expected from experiments.

Iceland Producing Wool.

Wool is an important agricultural export of Iceland, much of it being woven into blankets in America.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins. Zemo Soap, 25c—Zemo Ointment, 50c.

EAT FIGS

AND FEEL BETTER

Start eating figs and you'll feel better. The figs have a gentle laxative power and will aid materially in the process of elimination. We are showing a window full of figs put up in the original boxes in which they were imported. You may also let the kiddies have all they want.

Mr. Staley of DuBois, transacted business in Clearfield Monday.

Negro Blood in Alexandre Dumas.

Alexandre Dumas, the great French romantic novelist, was born at Villers-Cotterets, Aisne, France, July 24, 1802. He died at Paris December 5, 1870. His father, Gen. Alexandre de la Paillette Dumas, was the natural son of the Marquis Alexandre Dary de la Paillette, a rich politician of Santo Domingo, and of a negress whose name was Dumas.

Have Largest Leaves.

Largest leaves in the world are of the Inal palm, growing on the banks of the Amazon and reaching a height of 50 feet and breadth of 12 feet.

Your spectacles and eyeglasses, too, should agree with costume and occasion

Of course the cut and hue of dress are important factors in appearance. But don't forget glasses! If they clash with costume and occasion, the most attractive of faces is handicapped and the clearest gown avails you little. But it is quite easy to make sure that your glasses agree with you, your costume and the occasion. Let us fit you with the proper spectacles and eye-glasses for dress, for sport and semi-dress. Besides style correctness, you will thus get quality beyond question and the utmost in scientific precision.

BRACE UP!

Do you feel old before your time? Is your back bent and stiff? Do you suffer urinary disorders? Don't do, despair—profit by Clearfield experience. Clearfield people recommend Doan's Kidney Pills. Here's a Clearfield resident's statement. Geo. J. Kragle, painter, 306 E. Locust St., says: "A cold settled in my kidneys and I was bothered mostly with backache. The most troublesome times were when I stood in one position too long or if I stopped to do any lifting. The sharp kink took me in my back and it was hard to straighten. At times, my kidneys were too frequent in action. Doan's Kidney Pills were recommended to me and I got a box at Aughinbaugh's Drug Store. They drove away the backache and improved the condition of my kidneys." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
